ABSTRACT

The one of the best chemistry in human body as anti-aging concerned in many physiological substance as longevity as natural occurrence is that helps in so many applications as anti-wrinkle, face rejuvenation, skin augmentation, soft tissue augmentation, anti-erythemetic, skin elasticity, skin hydration, visco-elastic properties, antioxidants, hygroscopic nature, bacteriostatic effect, biocompatible, anti-inflammatory, anti-edematous, non-antigenicity, Drug delivery systems, cancer therapy, wound treatment, ophthalmology, cosmetics, etc., This paper mainly focus on the polynucleotides as DNA, RNA and hyaluronic acids which directly and indirectly helpful for staying longevity as many years as age factor as staying and looking young in human life. The best chemistry as natural and artificial polynucleotides as polymer class of materials.

Keywords: Polynucleotides, DNA, RNA, Polymers, longevity

I. INTRODUCTION

It is very very important to many researchers and scientists to know which part organ of human body as biological test body piece will be long life span and long lived organ. so by knowing this one can further helpful for studying it is essential ways to growth in medical sector. Venus is such a one quantity of things which has saved these materials long span as human sex organ and DNA can be stored in many life term period. Further it can be predicted sex organ can be lived more than 300-700 years up to more years there

is no range also. without DNA one can old age happen to human beings. young age there is no deficiency of DNA but problem in old age happens. This paper will be predicting long term life lived human body part organ will be sex organs. If a person knows techniques to retain his organs after young age also then his cleverness helps to keep stay youngness after 70, 80 age also. The most important organ comes under venus planet it may be sex organ or DNA of human beings. Shukra (Venus, Friday): Shukravar is supposed to be the day of the God of ghouls and ogre. Shukracharya likes white-coloured items like rice, sugar, semolina

and white fruits, venus :sweet foods, flavors, honey, sweeyt potato, figs,dates, mango, ghee, strawberries, almonds, yogurt, venus for jasmine flower . The alcohol wine whisky are to be preserved long term span years because it comes under venus planet. so every materials comes under this venus planet will live as long as high span term years.The preserving method and process is entirely different.

II. Methods for retaining organ

Seeds have gender like male , female and neuter, neuter gender foods in the form of seeds , grains, vegetables, fruits, Avoiding neutral gender grains to male persons food intake is the remedy to overall summary on gender foods consuming based on principle. By knowing food comes under which grain gender that food consuming is precautions to retain personality of human beings.

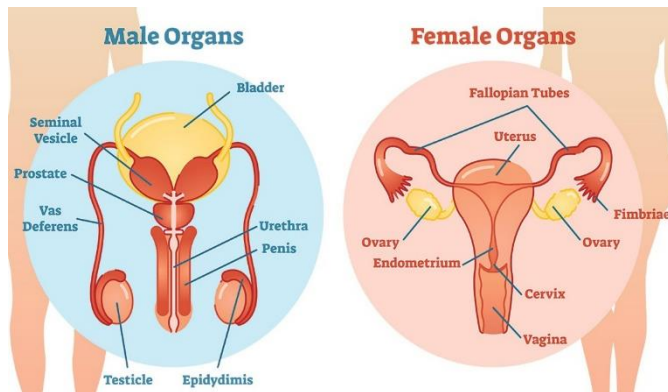

Fig. reproductive organs of male and female bodies

Electrical engineering as spark will occur phase or line with neutral wire. same concept also applied to food intake on human body

considering male as phase or line and neutral or common as super male or superfemale

The most important male planets are sun, mars, Jupiter, Uranus, Neptune, pluto etc.

remaining neuter planets are mercury, ketu, Saturn

The planets those are called earth, moon, venus, rahu are female gender and seeds comes from these are assumed to be female

The alar, in which sesame, curry leaves, asafoetida, etc. are cooked in boiling oil, is in small quantity, which has not enough effect on all types of seeds

By quantity-based food intake, much is consumed, which directly affects the human body.

wearing inner wears strongly

The venus energy present in almost every sector and streams like education, industrial, organization, male and female bodies, speech, talk , wealth, comfortless, appliances, metals, alloys, cereals, grains, vegetables, seeds, herbs, fruits, flowers, millets, Deo, etc. The absence of this venus yields persons personal life in terms of weak in his or her middle portion usually sex organ week and final results in divorce in their life.

This paper mainly focus how to gain venus power and avoiding divorce in scientific base principles. One can eating consuming internally as well as externally by means of beans as seeds, beetroot & shatavari as vegetables, pomegranate as fruits, jasmine flower, ashwagandha powder used internally consuming, and also use more metals and alloys which exists in venus planets. Activation of chakra direct results in gaining wealth luxury life. If the persons have these venus materials either he kept in his body or consuming then venus energy more then balancing of their DNA and RNA also hormonal balance maintaining well.

Imbalance of these leads if both have same chemistry repelling , repulsion developed. the dry fruits cashew nuts gives enhanced energy. The male born on day and female born on night they have more energy because venus have strength on night only. Finally if venus planet material strength is more then that person has stable marriage life if not strength then divorce will be getting. To avoid these conditions then person has to be consume venus planet seeds, fruits, vegetables, dry fruits, cereals, grains etc.

The venus power is more during night condition because of its climate condition during atmosphere on carbon dioxide is more at night only which leads better

time for reproduction. During day time that planet energy will be less on earth. This planet gives royalty luxury life to person as money , wealth etc. Swadhishthana chakra awakening gives more energy to couples.

Remedies for venus power:

For marriage not happening persons life then interchange of concerned chakra give 100 percent marriage will be made. This is one of the secret behind the application of chakras. For that donor must be able to donate that chakra and interchange among between them may be from brothers, friends, relatives etc.

Strengthening of chakra:

always activate awakening of 7 chakras starting from root chakra which is chief one from vibrational energy from tuning fork or other means.

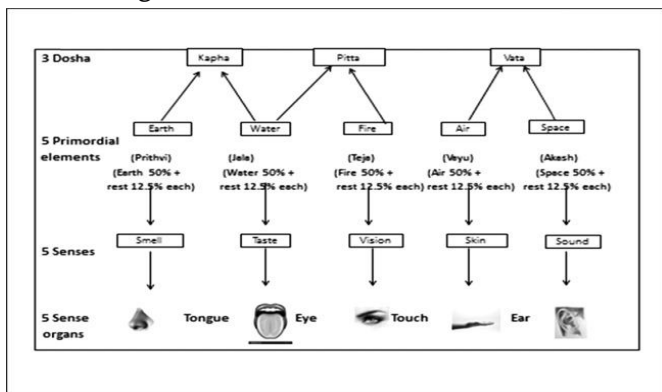

Fig. 3 doshas in Ayurveda

The food in the form of sexual energetic are called venus planetic . Further these in the form of vegetables beetroot, shatavari, dhania, coriander greens etc. The fruits is in the form of pomegranate. dry fruits cashew nuts. herbal shrubs like in the form of ashwagandha, safed multani, musli.etc. These can improve sex stamina and sex drive .also enhances sperm counts for male human beings.

The male and female food intake for sexual energetic food is entirely different for example male persons boosting energy is consuming onion and female persons can take energetic food like tamarind.

The acupressure points for particular male and female beings can different parts which are going to energies at different days at different organs from full moon to new moon. Further pressurizing the organ for male and female will be different at different days.

Here the most long life span of materials non living and living are to be saved like venus planet energies materials can be safely saved. for example ghee will be saved up to long term years 1000 years. similarly wine also preserved up to long span years.

Totally venus materials can be safely saved preserved up to long years. in the grains beans plays vital role for sex energy booster.

The most important organ comes under venus planet it may be sex organ or DNA of human beings. Shukra (Venus, Friday): Friday is supposed to be the day of the God of ghouls and ogre. Shukracharya likes white-coloured items like rice, sugar, semolina and white fruits, venus :sweet foods, flavors, honey, sweeet potato, figs,dates, mango, ghee, strawberries, almonds, yogurt, venus for jasmine flower . The alcohol wine whisky are to be preserved long term span years because it comes under venus planet. so every materials comes under this venus planet will live as long as high span term years.The preserving method and process is entirely different

III. Conclusion

1. biological test body piece will be long life span and long lived organ
2. long span as human sex organ and DNA can be stored in many life term period
3. sex organ can be lived more than 300-700 years up to more years there is no range also
4. without DNA one can old age happen to human beings
5. young age there is no deficiency of DNA but problem in old age happens.
6. If a person knows techniques to retain his organs after young age also then his cleverness helps to keep stay youngness after 70, 80 age also

- 7.If a persons marriage life is smooth only at his birth time venus rays falling from well direction
- 8.If a person has well progeny only at his birth time ketu planet rays falling from well direction
- 9.venus seeds gives better energy for reproduction
- 10.venus fruits, dry fruits, vegetables , gives extra ordinary energy to humans
- 11.balanced DNA and RNA will be maintained by these venus planet energy
- 12.if person has putting venus planet metals , alloys then he get energy
- 13.during day time venus has not enough energy but at night venus power will be more for that purpose sex will be made at night only
- 14.sperm count will be gained from cashew nuts
- 15.If person has eat shatavary vegetables then if he got well digestion then that person has good condition in sex power
- 16.ashwagandha herb powder will boost up energy for sex power and many more herbs relating to venus planet gives better results
- 17.vibrational energy from tuning fork at particular frequency for awakening solar plexus chakra as swadishthana gives better enrgy for reproduction
- 18.If couple has same chemistry as repelling yields finally they separate.
